

Technical Textiles

Innovation, Technology, Application

3 June 2009
Volume 52

Leader

- E 71** World market trends for technical textiles
W. Zirnzak

Industry News

- E 74** Global PP yarn market structure
E 75 Lower global fiber production
E 76 Radigreen yarn for synthetic turf
E 77 Global carbon fiber expansion
E 78 USA: generic name for PTT fibers
E 80 Smart fiber Nomex (DuPont)
E 80 2nd PLA production line (NatureWorks)
E 81 Wintrax for carbon fiber winding
E 81 Masterbatch expansion (Grafe)
E 82 New biopolymer (Kaneka)
E 83 US specialty fabrics market report
E 84 Clubtex: technical textiles and nonwovens

Techtextil 2009: Preview

- E 86-93** Fibers and yarns
E 94-112 Technical textiles

Fibers/Yarns

- E 113** New characteristics for all fiber types for the flock industry A. Rudolph
E 114 Improving odor properties of natural fibers for technical textiles H. Fischer et al.
E 115 Basalt filament yarns for technical textiles (Isomatex)

Technical Textiles

- E 116** ISO standardization of test method for cleanable filter media J. Binnig

- E 118** Innovative temperature and ventilation control with Trevira CS Bioactive
E 119 High-tech narrow textiles (Gerster TechTex)
E 120 High-speed and complete inspection of precision screens (OSIF)
E 122 Textile structures with tailor-made properties (Ettlin)
E 124 Weft knitted spacer fabrics as pressure sensors A. Tillmanns et al.
E 126 Spacer circular knit fabrics with specific physical properties O. Rieder et al.
E 128 Distance fabrics and multiple layer weaves in technical textiles D. Maes
E 132 MultiSpere – industrial mature technology for “woven” ropes R. Seidl
E 134 Hot melt adhesives in electrostatic flocking of plastic components B. Mrozik et al.
E 137 High-performance spacer fabrics with orthogonal 3D structure A.R. Torun et al.
E 140 Stitches and loops as linking elements for textile and non-textile materials H. Illing-Günther et al.
E 142 Development of plasma process for hydrophobization of surgical textiles E. Claßen, C. Diener et al.

Nonwovens

- E 144** Chances and opportunities for new products applying the wet-laid process (Part 3)
C. Knobelsdorf, R. Lützkendorf, M. Schmitt

Technical Making-up

- E 146** Automatic positioning system for production of ballistic protective clothing M. Spieler et al.
E 148 Laser cutting and engraving of textiles (eurolaser)
E 147 Calendar
E 149 Company Index
E 150 Advertisers Index / Imprint
